Pre-Construction Storm Water Control Measure Permit

Apollo Oaks

Permit Number: PC FY25_2613

Issued: 7/25/2025

The following items listed below are permanent best management practices (BMPs) to be installed during the construction and/or implemented after completion of this development. In order to complete the Post-Construction portion of this permit, submit the documents identified in the Action to Complete Permit section for each BMP to Kimberly Olivier after construction and contact the Storm Water Inspector for a final inspection.

Please be aware this permit is NOT COMPLETE until the Post-Construction portion of the permit application has been approved.

Post Construction Best Management Practices (BMPs) to be Constructed or Implemented		
BMP Type to be Verified	Location	Action to Complete Permit
Inlet Markers	On-site	<ul style="list-style-type: none">- PC Inspector verification at Construction Final (Public Streets)- Engineer Compliance Letter (Private Streets)- PC Inspector verification after Compliance Letter (Private Streets)

A copy of this permit must be displayed at the construction site.

Failure to complete this permit is a violation of the 'Bexar County Storm Water Pollution Prevention' Court Order and will result in a citation or fine.

If you have any further questions, please contact Storm Water Quality Division at 210-335-6651.

Respectfully,

Joan Montgomery PE
Storm Water Quality Engineer
