

NOTICE OF DISCLAIMER

TWC makes no representation or warranty regarding the location or depth of any surface facilities shown herein. If you plan to excavate, Texas Utility Code Title 5, Chapter 251, requires that you notify Texas One Call: 811 so that subsurface facilities can be marked, prior to excavation. You must also contact CLWSC directly for line spotting in area by consulting with TWC Engineering Dept. at 830-312-4600. Excavators are responsible for determining the exact location of such facilities by hand digging. By accepting this document you acknowledge your legal responsibilities above and agree that TWC will not be liable for any claims, damages, or losses related to reliance on this document. Tampering with TWC's water system. For emergencies, call 830-964-3854. This map is proprietary information of TWC and any sell or disclosure of such maps or information on them is strictly prohibited. Violations will be fully prosecuted.
